Drum Trolley

1-Drum Spill Containment Trolley

Product Introduction:

Udyogi Spill Containment Wheeled Trolley is designed to securely and efficiently transport and contain spills from 210-liter oil and chemical drums.

Features:

- **Rust and Corrosion Resistant:** Suitable for use with a wide range of chemicals, oils, acids, and solvents, the trolley is constructed from durable, robust polypropylene with thicker side borders, providing added strength for securely storing and transporting fully-loaded oil and chemical drums.
- **Drainage Plug System:** Equipped with a drainage system for easy spill removal and cleanup.
- **Spill Containment:** Designed to contain spills and liquid leaks from drum.
- **Ergonomic Handle:** Features an ergonomic handle for comfortable and efficient use, reducing strain on the operator.
- **Easy to Clean:** Smooth and open surfaces for easy cleaning and maintenance.
- **Versatility:** Can be used with various types of small drums and containers.

Product Specifications:

Model :	SCTL- 1D20
Construction :	Polyethylene.
Type :	Spill Containment Trolley.
Sump Capacity (Gallon) :	5.28 Gal.
Sump Capacity (Liter) :	20 Ltr.
Colour :	Yellow.
Drum Hold Capacity :	1 Drum (210 Ltr/ 55Gal per drum).
Load Capacity :	240 KGS.
Dimensions CM :	77 x 77 x 16 (L x W x H).
Dimensions MM :	770 x 770 x 160 (L x W x H).
Drain Key / Plug :	Yes (One Side)
Handle Height :	1120mm / 112cm.

Benefits:

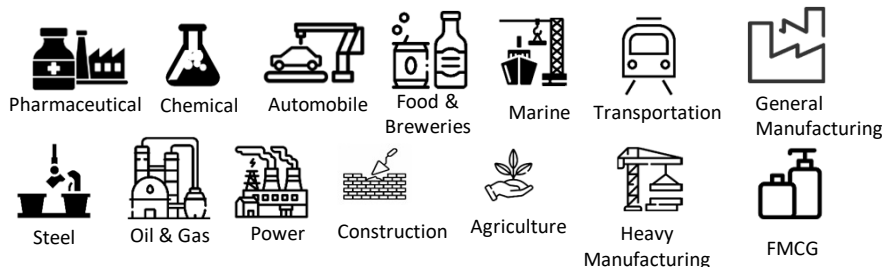

- **Cost-Effective:** Minimizes clean time, material waste, and cleanup costs, reducing the need for additional spill containment solutions. Offers a cost-effective way to manage spills and transport drums.
- **Regulatory Compliance:** Assists in meeting safety and environmental regulations by providing effective spill control.
- **Safety Improvement:** Reduces the risk of slips, trips, and falls in the workplace.

Application:

- A spill drum trolley is essential in industrial settings for the safe and efficient transport of liquid-filled drums, including oils, chemicals, and hazardous materials. It ensures the containment of spills.
- **Fluid Transport:** Used for moving drums of lubricants, coolants, and other automotive fluids within workshops or factories.

Industry:

The spill containment trolley are essential for maintaining a clean, safe, and efficient working environment in any industry that utilizes drums for liquid storage and dispensing.
